Richmond Road Complete Street
Byron Linear Park Renewal
Public Consultation
November 15th, 2016
Agenda

- Overview
- What We Heard
- Preliminary Design Review
- Byron Linear Park
- Next Steps
Complete Street Design Vision

- A complete street offers safety, comfort and mobility for all users
- May contain different elements based on its function and geographic location
- Strives to accommodate the basic needs of all street users
Road
Richmond Road – Past (1920’s)
Traditional Mainstreet
Example: Richmond Road – Existing
What We Heard

- Over 250 Attendees
- 635 Total Comments:

  - Main themes:
    - Mobility (188), design (348) and placemaking (100)
What We Heard

- Mobility:
  - Consider all users and choices & improve safety/accessibility (seniors)

- Design:
  - Safe, dedicated, separated bicycle and pedestrian facilities on Richmond (mobility choices)

- Placemaking:
  - Create a beautiful and vibrant Park: provide amenities (view corridors, benches and bicycle parking)
Preliminary Design Review

Highlights:

- Continuous cycling facility from Sir John A. Macdonald Parkway to Golden Avenue
- Wide sidewalk on north side with opportunities for enhanced streetscaping
- Four new mid-block pedestrian crossings
- Minimize impact on Byron Linear Park
  - Expand Byron Park where possible
- Maintain similar level of service for automobiles, trucks and buses
Preliminary Design Review
Woodroffe Protected Intersection

- Reviewing potential of closing Byron Avenue Woodroffe
Woodroffe Intersection Roundabout
Preliminary Design Review
Cleary Avenue / Cleary Station
Preliminary Design Review

Streetscaping
